

Make Your Own Mind Slime

Materials

Corn starch (about $\frac{1}{4}$ cup)

Water (about $\frac{1}{4}$ cup)

A bowl for mixing Food coloring

Measuring Cups

Measuring Spoons

Directions for making MIND SLIME

1. Add $\frac{1}{4}$ cup of dry cornstarch to the bowl.
2. Add about $\frac{1}{8}$ cup (2 tablespoons) of water to the corn starch and stir slowly. Add water slowly to the mixture, until all of the powder is wet.
3. Continue to add water until the cornstarch acts like a liquid when you stir it slowly.
4. When you tap on the liquid with your finger, it should feel hard. If your mixture is too liquid, add more cornstarch. (Your goal is to create a mixture that feels like a stiff liquid when you stir it slowly, but feels like a solid when you tap on it with your finger or a spoon)
5. Add several drops of food coloring. Experiment with amounts and color combinations.
6. Scoop the cornstarch mixture into the palm of your hand, then slowly work it into a ball. As long as you keep pressure on it by rubbing it between your hands, it stays solid. Stop rubbing, and it “melts” into a puddle in your palm.
7. Have fun!!!!
